

POLICY No. EMS-01-01

Original Date: 2/2/24

Latest Date: 2/2/24

Midland Tool & Design LTD (MTD) understands the impacts of global warming on the environment and on the needs and expectations of its interested parties.

To reduce these impacts MTD will adopt a plan, do, check, act strategy.

We will do this by:

- Monitor our GHG emissions and Identify areas where it can reduce this while minimizing impact on operations and the needs and expectations of its interested parties
- Identify an Adaptation Strategy
- Establish and Implement a Carbon Reduction Plan.
- Monitor performance and act on deviations from plan.

This Policy will be reviewed annually and has the full support of the Directors and Management Team.

Darren BOOTON
Managing Director
